

## What is Consulting You?

This flexible web-based toolbox supports the delivery of successful public engagement, demonstrating levels of community involvement as recommended by the Localism Act. It does this by creating a single online resource where the entire consultation process can be managed, monitored and clearly demonstrated within the Statement of Community Involvement.

## How can Consulting You support your Community Engagement?

Promote workshops, events and exhibitions

Share development details

Capture community feedback – quickly and easily

Undertake surveys and questionnaires online – with a print download option for events

Update stakeholders and share scheme developments – at intervals or as they happen

Use the backend reporting tool to collate and analyse feedback across multiple fields

Provide comprehensive Statement of Community Engagement reports – readily exporting collated comments and survey results in a variety of editable formats

**Public consultation  
made simpler, speedier  
and more effective**

## How else can we help you?

## Who can use it?

Anyone involved in public consultation for a planning application - planning consultants, developers, community engagement consultants, architects & PR consultants.

Access to the site can be shared by different parties with no added cost.

## It's far more than a web site

Your private dashboard shows you exactly what is happening – view web analytics, update content, follow and review feedback, review questionnaires and download reports in various formats. When you're ready, the consultation statistics can simply be downloaded as an editable, easy-to-read file for the Statement of Community Involvement – proven, demonstrable engagement.

## How much does it cost?

It's free to register and set up your site. When you're ready to go live just pay online. The complete service is just £80 a month, debited from your nominated card only while the site is live. No long-term contracts or commitments.

## How does it work?

Register with Consulting You, add key information about your project and in minutes you'll have all the tools you need to undertake a thorough public consultation.

Upload PDFs and JPEGs, add text, share information, promote events, create questionnaires, capture feedback and download reports - all in one place.
